## About Company

---

**Advanced** Company is a leading manufacturer based in Jordan, specializing in the design and production of high-quality low-voltage switchgear panels and control panels. With a commitment to innovation and precision, Advanced Company serves diverse industries by delivering reliable and customized solutions that meet international standards. By integrating cutting-edge technologies, the company ensures that every product is meticulously designed and manufactured to exceed client expectations.

As a sister company of **Sahara** Company, headquartered in Kuwait, Advanced Company benefits from a robust partnership that extends its expertise and market reach. Sahara Company, a recognized leader in low-voltage switchgear and control panel solutions, focuses on delivering superior products and services throughout the Gulf region. Together, the two companies leverage their combined experience, shared values, and technical knowledge to provide innovative energy and control solutions that cater to the needs of clients across the Middle East.

# Why Choose Us?

## 01 Proven Expertise

With decades of experience in manufacturing low-voltage switchgear and control panels, we have a deep understanding of the industry and its technical requirements. Our team of skilled engineers and technicians ensures precision and innovation in every project.

## 02 Comprehensive Solutions

We offer end-to-end solutions, from design and development using advanced tools, to production and delivery. Whether you're looking for standard or custom solutions, we have you covered.

## 03 Commitment to Quality

As ISO 9001-certified companies, we adhere to the highest standards of quality management. From design to production, every step of our process is monitored to meet and exceed client expectations.

## 04 Customer-Centric Approach

We value long-term partnerships with our clients by providing reliable, efficient, and cost-effective solutions. Our customer service team works closely with you to understand your requirements and deliver tailored results.

## 05 Sustainability

We prioritize environmentally friendly practices and continuously invest in innovative technologies to create sustainable, future-ready solutions.

## 06 Advanced Facilities

Our state-of-the-art production lines are equipped with cutting-edge technology, enabling us to maintain precision and efficiency while meeting large-scale demands.

## 07 Technical Excellence

Our team brings together years of experience in technical design, engineering, and manufacturing, ensuring the delivery of robust and reliable products.

## 08 Strategic Presence

With Advanced Company based in Jordan and Sahara Company in Kuwait, our strategic presence allows us to efficiently serve clients across the region while maintaining consistency in quality and service.

## 09 Timely Delivery

Our well-structured logistics processes and streamlined supply chain ensure that your projects are completed on time, every time.

## 10 After-Sales Support

We stand by our products with dedicated after-sales support, ensuring peace of mind for our clients long after project completion.

# Our Products

## Low Voltage Switchgear & Control Panels

Main Low Tention Panel  
MLTP

Motor Control Center  
MCC

Automatic/Manual Transfer  
Switch ATS/MTS

Main & Sub Main Distribution  
Board MDB & SMDB

Distribution Board  
DB

Motor Starter  
MS

Street Light Feeder Pillar  
SLFP

Service Cabinet  
SC

AC & DC Box

Telephone Box  
AVA BOX

Capacitor Bank Panel  
CBP

Wall Mounting Steel  
Enclosure With Plate

Earthing Panel System  
EPS

Photovoltaic Panel System  
G99 - Coupling Panel

# Our Products

## Telecommunication Data Cabinets

Wall Mounted Cabinets

Free Standing Cabinets

Outdoor Cabinets

Smart Racks

Micro Data Center

Indoor Fiber Optical Distribution Frame (IDF)

Outdoor Fiber Optical Distribution Frame (ODF)

Mini-Shelter Cabinets

5G & Cell Solutions

CCTV Cabinet Solutions

## Medium Voltage Switchgear & Control Panels

The production line for medium-voltage switchgear and control panels is currently under development.

license

- We have partnerships and agreements with several international companies, including Schneider Electric as a Certified Panel Builder.
- The ASTA Licence and ASTA Diamond Mark are among the few certification marks accepted by UK authorities for 3-pin plugs.
- Our other partnerships and agreements with international companies include EAE, Westinghouse, Telergon, Ortea, Inotec, and Cooper.

Verification of Test

- Our products have obtained type test certificates from accredited international laboratories, including ASTA.
- Our low-voltage switchgear and motor control center products are ASTA-certified, achieving the highest form rating of segregation (Form 4b, Type 7) as specified by AS/NZS 61439.1.
